DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed 27 January 2004 has been entered and overcomes the Double Patenting rejection cited in the previous office action.

Drawings

2. The drawings were received on 27 January 2004. These drawings are acceptable.

Allowable Subject Matter

3. Claims 1-20 are allowed.

4. The following is an examiner's statement of reasons for allowance: Applicant has amended independent claims 1 and 19 to clearly distinguish the annular geometry of the channel of the instant application from the cylindrical geometry of the channel of the applied reference. In particular, applicant adds to each independent claim "said channel formed between an outer wall that forms an outer cylindrical structure and an inner wall that forms an inner cylindrical structure" to distinguish from the claims of the applied reference, thereby, obviating the Double Patenting rejection.

5. Thus, due to their dependency upon independent claims 1 and 19, claims 2-18 and 20 are also allowable. The design is new and unique to the art

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
